## Covid-19 extra measures

For your safety the following measures  
have been implemented

Our extra measures for your safety

In order to keep the risk of infection down to a minimum we have taken the following steps. While some things are now a little more basic we have done this in your best interests.

- Removal of any books, games and welcome packs\*
- Removal of extra soft furnishings such as throws, cushions etc
- 1 place setting for all diningware – this is so we can disinfect it all in the dishwasher between guests
- Deep clean between guests using recommended bleach sprays on all surfaces
- Final full mist disinfection throughout the whole cabin and balcony using a fogger machine on all walls, doors, curtains, bathroom furniture, hot tub cover and casing.
- Strict code of conduct implemented for all guests which will be policed for everyone's safety but also as relaxed as possible, so we do not disturb your vacation.
- If any of your group show any symptoms of Covid-19 please contact us immediately on the number below so we can discuss with you the safest action for yourselves, our staff and other guests.

To protect our staff and to follow current government guidelines we kindly ask you to do the following on departure day.

- Strip all bedding including mattress and pillow protectors and place in the clear bag provided
- Place this bag along with any recycling and general rubbish bags on the balcony
- Open all windows and patio doors to ventilate the cabin as much as possible
- **Please vacate the property at 10am and notify us that you have left either by text, whats app or a phone call to 07795276993.**

Should you require any extra refuse bags please contact us on the above number at any time and we will leave these on the balcony. As always you can contact us anytime on the above should you require any assistance with anything.
